Motion passes 6-0-0 at 5:04pm

**Approval of Minutes:**

Motion made by Noriel /seconded by Charisse  
Motion passes 6-0-0 at 5:04pm

**Open Forum:**

- a. None

**Announcements and Presentations:**

- a) CALPIRG- Maggie White and Tiffany Spalding have been working with the Lobby team and working with the youth voter registration. The presented statistics on the youth voters and how low the ages between 18-27 is much lower than the elderly age group. On myc sustan, we also have a box to vote as well so what the school is working on is making this small box more prominent in hopes that they will have better turnouts. They are trying to partner with Senator Alex Padilla and before registering for classes they would be able to register online and have students look at the box to vote. CALPIRG is asking all college institutions to write a resolution of support, and if you are interested feel free to email Maggie and she will find a time to talk with everyone to write this resolution.

**Action Items:**

**Discussion:**

- b. Opinion Poll for Future ASI Space- Marvin—from the voter turnout the Cross-Cultural Center, then the Career Center followed by the 24hr study room. Marvin has done research from all other campuses and what services they have offering to their students to get ideas of

what we would like to see in our space. He went through explaining what each room would provide and how we would go about handling these situations. He also listed the budgets about each room and what it would take to afford something. The board had long discussions about their preference is on the open space while considering the voting poll and what the students wanted. The board collaboratively decided that out of the three we can eliminate the 24 hr study room because that is something we feel should be the libraries responsibility. The board had also discussed ways to maybe make two of the rooms into one kind of like the MJC library and then they have the career center as well. In this case it may be that we need to pressure the University to step up their game and provide better services offered in the Career Center. Here are some examples of what services would be ideal:

- a. Career Center : Relevant Services
  - b. The following services should be highly considered in the development of a Career Center:
  - c. Self Assessments, Major, and Career Exploration
  - d. Develop a Resume: Walk-in Resume critiques
  - e. Job Search Preparation: Cover Letter Review, Mock Interviews, Salary/Industry Trends, Provide Interview Attire, Salary Negotiations
  - f. Connect with Employers: Career Fairs, Networking Mixers, Link Employers to Students, Warrior Alumni
  - g. Locate a Job or Internship: On-Campus Recruitment, Assistance in Job/Internship Search,
  - h. Gain Experience: Part-time Internship, Full-Time Opportunities, Community Service, Volunteer Opportunities
  - i. Plan for Graduate School: Application Process, Personal Statement Review
  - j. Alumni Warrior Connection: Link alumni with students in relevant fields
  - k. Employer Internships: Allow the opportunity for employers to post internships on our website.
- c. Cross Cultural Center:
- a. Advocacy: Create programs that highlight the diversity of the campus and promote our student body.
  - b. Cultural Competency: Promote cultural awareness, knowledge, empathy, and skill building.
  - c. Community Building: Provide a safe space and safe experiences for every member of the campus community by providing opportunities that engage a person holistically.
  - d. Academic Excellence, Research, and Education: Provide training and educational opportunities to the campus community that engage and challenge participants to be champions of social justice.
  - e. Identity Exploration: provide programs and experiences that allow each individual to freely explore, discover, and understand their identity. These events can include multiple dimensions of culture such as race, sexual orientation, gender, class, ability, spirituality, and nationality, which reflect the fluidity of human diversity.
  - f. Leadership Development: Provide meaningful opportunities for student leaders and staff who share a passion for inclusion, pluralism, and social justice.

The board will further discuss this when we have a full board meeting.

- a. Early Registration- Nicole, Cesear, Marvin and some faculty and coaches attended the SEC meeting and it felt like they haven't changed their minds about what we are working for. We have done lots of work but they would like data and that is something that would take a while to get. It is very frustrating and therefore we will just keep bringing up the topic and annoy them with how the students are feeling. As of what we have heard, we don't look like we are on the agenda and will just be at academic senate making sure what is being said is stated in the minutes.

#### **Director Reports:**

At Large

- CSSA is going on this weekend at East Bay

- He applied to one of the positions at the CSSA and listed off more in case our board is interested

Athletics

- none

Business

- none
